

Risk & Opportunities Executive

Company:	East West Railway Company
Location:	London initially, then based in the Oxford-Cambridge corridor
Basis:	Permanent
Role Summary:	Risk Executive to manage and enforce an effective Enterprise Risk Management capability
Team dimensions:	Reporting directly to Strategic Head of Risk

Would you like to be at the forefront of the changing landscape of the rail industry?

A little bit about us:

East West Rail is a proposed new rail link between Oxford, Milton Keynes, Bedford, Cambridge and potentially beyond. As part of the wider plans for this strategically important corridor, it is one of the most high profile infrastructure projects in the UK today. The new railway will improve local connectivity and serve as a catalyst for economic development and the creation of new housing, as well as significantly reducing existing journey times.

We are building a diverse team and we welcome people with different types of experience and outlook.

We offer a truly breath-taking opportunity to:

- Innovate, positively disrupt and make impactful decisions
- Openly share your ideas and knowledge
- Be part of a passionate, diverse and friendly team
- Learn, develop and build the career of your dreams
- Have the right work-life balance through flexible working arrangements
- Be rewarded and recognised for your input

Key accountabilities:

- Implement risk strategy, policy and framework for the EWR organisation.
- Provide day-to-day guidance and functional responsibility for risk and opportunity across EWR Co.
- Leading the implementation and development of the EWR risk and opportunity management capability including training activities
- Conduct risk analysis assessments (e.g. QSRA and QCRA) as required for EWR to fulfil its strategic objectives and programme requirements
- Run risk workshops to drive insightful decision making
- Providing input to the governance structure for the effective and consistent communication of risks and opportunities

You should apply if you have:

- Experience in implementation of Risk and Opportunity policies, standards, processes and / or systems.
- Working knowledge of risk and opportunity tools and methodologies, including risk networks Experience in coaching team members around risk and opportunity management, and user adoption.
- Understanding of, and success in, managing the measurement and reporting of performance, in very large and complex programmes
- Experience of quantitative risk analysis (QSRA and QCRA) using tools such as PRA, ARM or equivalent

Education and qualifications

- Substantial relevant experience in risk functions on major infrastructure projects and programmes.
- Educated to at least degree level, or equivalent training and experience. Risk certification highly desirable (IRM, APM).
- Experience in developing risk models for major infrastructure projects and programmes.
- Expert knowledge of the systems and toolsets used for Risk Management databases and cost and schedule risk analysis software (e.g. ARM, Primavera risk analysis (Pertmaster)).
- Excellent communication and presentation skills.

You will need to have the right to work in the UK.
